

XVII Brunel - Bielefeld Workshop

- Random Matrix Theory and Applications -

17 - 18 December 2021

ZiF - Centre for Interdisciplinary Research, Bielefeld University

->> Online Event <<-

The aim of this workshop is to bring together physicists and mathematicians working in the area of Random Matrix Theory in a broad sense. The programme will consist of talks by invited speakers on Friday and Saturday, and poster sessions starting Thursday afternoon. Requests to participate, especially from junior researchers, are welcome and should be directed to the conference office. For informal enquiries please contact any of the organisers. Support is available to a limited number of participants presenting a poster. The programme of the workshop will include the following themes:

- **Beta-ensembles, Heavy Tails and Large Deviations**
- **Integrable Systems and Random Matrices**
- **Non-Hermitian Random Matrices and Their Applications**
- **Applications to Networks and Deep Learning**

Deadline for requesting participation is 31 October 2021.

Invited Speakers

Johannes ALT (New York), Fanny AUGERI (Paris), Emma BAILEY (Bristol), Sungsoo BYUN (Seoul),
