

12. Kosmologietag

May 18 – 19, 2017

ZiF -- Center for Interdisciplinary Research
Bielefeld University

Overview talks:

Julien Lesgourgues, RWTH Aachen

***Cosmological Constraints on a Possibly Non-trivial
Dark Matter Sector***

Geraldine Servant, DESY Hamburg

The Serendipity of Electroweak Baryogenesis

Organizers:

D. Bödeker

D. Schwarz

© Abell 520 "Train Wreck" cluster, composite view - NASA

Areas of cosmology which we expect to cover include the CMB, HI observations, large scale structure, dark matter, inflation, dark energy (and its alternatives) and baryo-/leptogenesis
