## involvement in SKA SWG and consortia

### International involvement

communication how to get knowledge across

SKA working group members  
are the link between the  
National efforts

Membership in the SWG?  
suggestions?

J. Kerp – HI galaxy science

J. Weller – cosmology applied today

### SKA SWG open access

The SWG is organized into a set of Science Teams. Each Science Team has a focus on a specific aspect of the larger SKA Science Case. Current Science Teams are:

- \* [Epoch of Reionization & the Dark Ages - \(Membership\)](#) – Outcomes and presentations of the March 2013 Science Assessment Workshop available [here](#) S. Inoue, B. Ciardi
- \* [Fundamental Physics with Pulsars - \(Membership\)](#) [C. Laemmerzahl](#), M. Kramer, D. Champion, P. Freire, K. Lee
- \* [H I and Galaxy Evolution - \(Membership\)](#)
- \* [Cosmology - \(Membership\)](#) S. Inoue, D. J. Schwarz, H.-R. Klöckner
- \* [Cosmic Magnetism - \(Membership\)](#) [A. Bonafede](#), R. Beck, D. Schnitzeler
- \* [Astrobiology/Cradle of Life - \(Membership\)](#) A. Belloche
- \* [Continuum Surveys - \(Membership\)](#) [M. Brueggen](#)
- \* [Radio Transients - \(Membership\)](#)

The set of Science Teams may evolve, based on emerging scientific results or as needed by the SKA Organisation. Each Science Team shall have a Chair or Co-Chairs, appointed by the SKA Science Director with appropriate attention to representational balance across the entire set of Science Teams. Chairs are appointed for a two-year term that may be renewed for a second term of up to two years. Renewals will be staggered so that a similar number of new appointments are made each year.

**Membership on Science Teams is open to any researcher with a science interest in SKA and willingness to contribute an appropriate level of effort toward SKA science needs. Science Team membership is open to researchers affiliated with both SKA-member and non-member nations. Researchers can nominate themselves for membership by contacting the relevant Science Team Chair. Appointments to the Science Teams are made at the discretion of the Chairs, with arbitration in the event of appeals handled by the SKA Science Director. Chairs should endeavor to**

German participation since the early phase of the SKA
