

## 16. Kosmologietag

**May 5 to 6, 2022 at ZiF, Bielefeld University**

We kindly invite you to participate in the 16th Kosmologietag in Bielefeld on May 5 to 6, 2022, which we plan to organize in person again this year.

We will stick to the tradition that Kosmologietag starts on Thursday, 12:30 (registration)/13:00 (talks) and ends Friday, 13:00 including dinner at "[Brauhaus Joh. Albrecht](#)" Thursday night.

The workshop consists of mainly contributed talks, complemented by invited overview talks given by

*Laura Sagunski*, Goethe-Universität Frankfurt am Main  
*Gravitational Waves from the Dark Side of the Universe*

and

*Kai Schmitz*, CERN, Geneva and Westfälische Wilhelms-Universität Münster  
*Probing New Physics with Pulsar Timing Arrays*

Talks - with the exemption of the overviews - should last 15 minutes + 3 minutes discussion.

There will be a small conference fee of 50.00 € to cover coffee and dinner.

During the conference the following COVID-rules apply: either full vaccination (3 times) or official test (not older than 24 hours).

**Registration is closed.**

For scientific questions, please contact:

 [Dietrich Bödeker](#)

 [Dominik Schwarz](#)

For non-scientific questions, please contact: [Irene Kehler](#) (secretary)

Best wishes,  
Dietrich Bödeker and Dominik Schwarz

Please find the itinerary to the Brauhaus [here](#).

Tickets can be bought from the bus conductor (2.90 € to be paid cash) or via eezy-app:

<https://eezy.westfalentarif.de/>
