

Seminar High Energy Physics

(Tuesdays, 14h c.t., D6-135)

| Date | Guest / From | Topic | Contact person |
|----------|--|--|--------------------------------|
| 08.04.21 | Yacine Mehtar-Tani BNL, Upton/NY | A New Unintegrated Gluon Distribution to Probe Saturation Physics in DIS | S. Schlichting |
| 27.04.21 | Azadeh Maleknejad CERN, Geneva | Is Our Universe the Remnant of Chiral Anomaly in Inflation? | D. Bödeker |
| 06.07.21 | Lena Funcke Perimeter Institute, Ontario, Canada | Machine Learning for Thermodynamic Observables in Lattice Field Theories | G. Endrödi |

Sommersemester 2021
